

Denaze Defense Solutions JV, LLC

Denaze Defense Solutions JV, LLC

8(a) Certified, Alaska Native Corporation-Owned Small Business

Denaze Defense Solutions JV, LLC (Denaze) is a joint venture between MTNT IT & Communications, LLC (MITCOM) and ISYS Technologies, Inc. (ISYS) formed to support our customers' Information Technology Infrastructure, Engineering, Cyber Security and Military Operation service needs. Denaze's expertise spans many areas from Network and Security Operations to Cyber Security and Information Assurance. The Denaze team provides Software Development and Maintenance, as well as System and Software Engineering and the training to support our programs. Denaze delivers high-quality and cost-effective services with a driven team ready to support our customers' unique requirements.

MITCOM operates under MTNT, Ltd., an Alaska Native Corporation (ANC) established in 1976. MITCOM provides cleared staffing and professional support services to government and commercial clients. MITCOM specializes in project-oriented work that leverages best practices and leading technologies to help our customers exceed their strategic and operational goals.

ISYS is an award-winning Woman-Owned Small Business with more than 18 years of federal contract management experience. ISYS delivers Program Management, Information Technology, Agile Software Development, Cyber Support Operations, Intelligence Analysis and Engineering solutions.

 Radar

BENEFITS OF PARTNERING WITH US ALPHA Contracting Process

Congress provided all Alaska Native Corporation owned firms (ANCs) with a unique set of rights under the SBA program. As part of these rights, the government can benefit from:

- No dollar ceiling on set-asides or sole source contracts {13CFR124.311(b)}
- Awards cannot be protested {13CFR124.517(a)}
- Parent company and subsidiaries do not count towards the size of an ANC company {13CFR112(c)(2)(iii)}
- Allows direct conversion of A-76 Commercial Activities {Section 8014, FY98 Defense Appropriations Act, PL105-262}
- DOD Indian Incentive Subcontractor Initiatives Program allows a 5% incentive payment to Prime Contractors {FAR226-1}

The benefits of the Alpha Contracting Process significantly reduces acquisition cycle time by enabling Denaze to rapidly execute contracting actions.

HOW TO WORK WITH US - ALPHA

Contracting Officers who want to procure from Denaze using the Alpha Contracting program need only do the following:

1. Create a draft purchase order;
2. Write a brief description of what is being procured;
3. List "Denaze Defense Solutions JV, LLC" as the intended sole source awardee;
4. List the NAICS code and Denaze's CAGE Code (8BT47);
5. List the contracting activity name and contact data;
6. List the end-user (or recipient) name and contact data;
7. Submit all information to our SBA contact;
8. Receive the SBA's "Letter of Approval" to issue the award; and
9. Release the purchase order directly to Denaze.
